Peripherals, Mounts & Stands

Accessories

Flexible Mounting

Commercial Grade

Peripheral Expansion

Product Overview

Elo's touchsreen solutions can be deployed in portrait or landscape orientation using tabletop, wall mount, and floor stand accessories specifically designed to hide all cables and buttons, while physically securing the device. Deploy as counter signage using an adjustable table-top stand, Flip Stand or Wallaby POS Stand. For kiosk applications, use the floor stand designed for stable operation with a 2-inch stainless steel pipe to conceal cable routing to floor or wall outlets. A wall mount option is also available to easily secure in flush-mount applications.

Peripheral expansion options include an encrypted MSR (magnetic stripe reader), barcode scanner, NFC/RFID reader, EMV Cradle and GPIO (General Purpose I/O) interface. The peripheral accessories help deliver interactive connected experiences from the point of interest to point of sale.

A full complement of mounting and peripheral options to make your touchscreen installation easy and cost effective

Create a unified approach to any customer experience in point of sale and self-service including applications for:

- **Endless aisle**
- **Proximity marketing for product promotions**
- **Loyalty programs & shopper engagements**
- **Price verification**
- **Check-in & Time clock**

Ordering and Compatibility Information

Product Description	Part Number	Photo
