

# Omni One Scan

for iPad Air 2, iPad Pro 12.9, and iPad 5th Generation

## Redefine Your Workflow

Bring the online shopping experience to the sales floor. Let customers read reviews, research products, and check availability. The Omni One scans 1D/2D barcodes and provides the option to connect 3rd party peripherals to additional serial and USB ports. With iPad front and center, the Omni One Scan enables retailers to create customizable experiences and personalized interactions.

### Customized Experiences

Imagine and create a variety of interactive experiences for your customers. From price checking, product discovery, endless aisle to returns, smart fitting rooms, and self-checkout, Omni One Scan offers endless possibilities.

### Effortless Scanning

The Omni One Scan includes an integrated high-speed 1D/2D barcode scanner. The device can read barcode labels in any direction.

### Multi-Use & Functionality

Connect and use a wide range of third-party peripherals to create the right experience for your customers. With both a serial and USB port available, you can connect a wide range of 3rd party peripherals today or custom design based on your unique needs.

### Easy to Use

Integrate the Omni One Scan with your existing system. Our Omni Config App & SDK allow you to configure approved external peripherals for each port easily.

### Power Simplified

Eliminate downtime by providing power to both iPad and USB supported 3rd Party peripherals. Power over Ethernet (POE) is available.

### Safe, Secure, and Certified

The Omni One Scan is UL, FCC, CE, RoHS, RCM, Apple® MFi certified out of the box.

# Omni One Scan

for iPad Air 2, iPad Pro 12.9, and iPad 5th Generation
