

Carrier 40 Cart

Universal, secure solution to charge, store, and transport up to 40 devices.¹

Shared use. Baskets by PC Locs enable devices to be shared by multiple students or classrooms with ease. Ideal for Shared Use deployments.

ECO Safe Charge™ power management system with remote control for safe and efficient charging of up to 40 devices simultaneously.

External charging status display. Quickly check the charging status of your devices and the charging mode selected without opening the cart.

Timed Charging Modes. Easily set your Cart to charge for a specific amount of time.

Flexi power system for adjusting both board angle and sliding it into a preferred position to deal with the variety of different device power bricks on the market.

Safe and secure. The 3 point locking system together with the combination padlock secures your devices whilst they're not in use. Secure the whole cart down with the optional heavy duty anchor kit.

Top sliding lids double as work surfaces. The dual sliding lids can be used as a work surface in space-strapped classrooms

Lifetime Warranty. We know that schools can be tough on equipment which is why PC Locs products are built to last with a lifetime warranty.²

It just makes life easier.

Designed to go where others can't. Stairs, rough terrain or want to split your set of devices? It's now easier with the Baskets by PC Locs. Baskets by PC Locs are designed to make deployments of devices faster and safer, so that Teachers and IT Administrators can focus on creating an engaging learning environment.

Using Laptops or devices that are too big for the baskets? The Carrier 40 Cart features a three level adjusting storage shelf. This allows users to install the optional device storage racks into the Cart's storage area (which replaces the Baskets by PC Locs). The storage racks are designed to accommodate Laptops, Macbooks and other larger devices.

Timed charging modes. Easily set your Cart to charge for a specific amount of time. The ECO Safe Charge will allow you to charge all devices for 1 or 3 hours before it automatically switches off. It can also cycle charge groups of devices for 1 or 3 hours at a time.

Specifications:

dimensions: 855(L) x 670(W) x 934(H) mm
