

Carrier 15 Charging Station™

The Universal Charging Station

Charge, store & secure up to 15 devices.

-  **Large Baskets by PC Locs.** Making device deployments faster and safer, so that Teachers and IT Administrators can focus on creating an engaging learning environment.
-  **Compatible.** Includes three Large Baskets and a Device Rack for storing just about any device.¹
-  **Secure.** Keep your valuable device investments safe. The combination of welded steel construction, the mounting-kit and a hardened steel padlock, protects your devices while they're not in use.
-  **Efficient charging.** The Carrier 15 Charging Station can charge 15 devices simultaneously including Chromebooks, MacBooks, Laptops, iPads and most Tablets, with or without most cases.¹
-  **Wall or desk mounting.** Transform any wall, desk or bench into a secure space for charging devices. The Carrier 15 Charging Station is designed to be flexible and adapt to your surroundings.
-  **Lifetime warranty.** Schools can be tough on Charging Stations. PC Locs products are built to last.²

It just makes life easier.

Designed to do what other Charging Stations can't. Baskets by PC Locs makes the Carrier 15 Charging Station portable, allowing you to share and safely distribute the devices that are stored in the Charging Station, between multiple classrooms. They also enable students to assist in the distribution of devices, so teaching can happen faster. The Baskets are interchangeable with PC Locs Carts that use the same large Basket ecosystem, such as the Carrier 20, 30 and 40 Cart™.

Larger Baskets by PC Locs. The Carrier 15 Charging Station is equipped with three Large Baskets, allowing it to fit bigger devices. Now you can store and safely distribute up to 13" Chromebooks, MacBooks, Tablets or iPad devices.¹

Are your devices still too big for the Baskets?

The Carrier 15 Charging Station also comes with a Carrier Device Rack. The Rack replaces the baskets and is designed to accommodate larger devices.

Easy cable management. PC Locs cable management has been simplified so that you can wire an entire Charging Station in minutes. Save time with set up and gain time using your Carrier 15 Charging Station.

Secure charging. The externally accessible power outlet means that you can charge your devices while they're safely locked in the Charging Station. Additionally, the device power packs are securely stored away in the overhead compartment and can only be accessed when the Carrier 15 Charging Station is open.

Modular syncing (optional). Don't buy a new Sync and Charge Station, purchase the hand held iQ 16 Sync Charge Box™ which allows you to carry the unit to where syncing is required (sold separately). Contact us for more details.

Specifications:

dimensions: 708(H) x 596(W) x 340(D) mm
weight: 29 kg
